

## **STUDY PROGRAMMES OF CRIMINAL INVESTIGATION**

Pursuing the goals of the Bologna process, all study programs offered at Police College are carried out in line with the Bologna principles. The European Credit Transfer System - ECTS has been fully introduced to all study modules and courses. By means of ECTS, Police College assures full transferability of credits to different levels of study. As of ECTS, the student workload is expressed with 60 ECTS for one academic year, i.e. with 30 ECTS per one semester. In general, one ECTS corresponds to 25 hours of student work. The methodology for allocating credits to courses as of ECTS is further elaborated. Apart from assigned ECTS credits, all courses provide clear overview of learning outcomes. ECTS is also used as a tool for recognition of achievements of mobile students, providing a transparent framework for recognition of grades and qualifications. Along with national grading system, corresponding ECTS grades are used in official documents issued to mobile incoming students.
